

NOLA-PS VACCINATION MANDATE

InspireNOLA Charter Schools is committed in protecting the health and overall wellness of its students, staff and school community. As both the Orleans Parish School Board and the broader New Orleans community put additional measures in place that work toward the safe continuation of work and other activities, we also embrace a more comprehensive strategy designed to reduce the likelihood of transmission of the COVID-19 virus while keeping our scholars and school community healthy and in person for learning experiences.

Per NOLA-PS mandate, InspireNOLA Charter Schools will require all students to have proof of COVID vaccination administered by February 1, 2022, or have a waiver granted to attend InspireNOLA Charter Schools. School sites will start to verify vaccine cards or wavier forms for each class starting Thursday, February 3, 2022. We ask that all parents follow the district mandate regarding wavier or vaccines. All InspireNOLA students who participate in extracurricular activities must be fully vaccinated.

Per NOLA-PS, families must communicate their child's status to their schools by Monday, February 7, 2022. It is imperative that parents and families let us know where they stand – either fully vaccinated, partly vaccinated, or exempt – so that our schools can better plan around potential quarantines and limit exposures.

EXEMPTIONS

Families may request religious, medical, or disability-based exemptions utilizing the provided waiver form. Upon request for exemption from this district/school policy. Exemptions forms must be signed and completed by families and returned by to the school by February 1, 2022. Additional exemption forms can be found on InspireNOLA website.
